

Project Open – **“Lincoln Towers University”** “Pop-Up Series”

“The Mexican Wall: To Build or not to Build

Sept 14, 7:30-9:00PM 185 Community Room

There is a big debate about building the wall and how to pay for it. Will it do the desired job? What are the problems associated with this project? Who on the border supports and who is against it?

Professor Charles Carreras taught Latin American History and Politics at Ramapo College for forty years. He studied border issues and visited the border on various times. This will be an exchange of ideas and a look at the pros and cons of the issue.

\$5 donation at door for pop-up.
